Editorial – Energy Conservation Day

14th of December is celebrated as the national energy conservation day by the people all over the India. In the year of 2001, the Bureau of Energy Efficiency (BEE) executed the Energy Conservation Act in India.

The government has come up with energy or carbon taxes in different countries to decrease the unnecessary wastage of energy. It is expected that imposing a tax on high energy consumption will reduce the energy use by the users as well as will promote limited energy use among users. Petroleum Conservation Research Association (established in 1977) and Bureau of Energy Efficiency (established in 2001) are the two major initiatives by the Government for better energy efficiency and conservation.

It is essential for each and every citizen of India to be aware of how to use efficient energy, how to save the energy for their own future safety and national level. National Energy Conservation Day solely aims to make the country aware of the effects and its causes of the Energy which is used by every people in the World. It implies the importance and sustainability of natural resources.

Brief Note on Trade Test

Trade Test- other way the term trade test mean practical examination in the field of technical aspect. Assessment is done to the candidate offering his candidature to the post whether he/she has the aptitude and qualification for the post applied. Basically, all field staffs whether, it is photographer, Video Cameraman, Helper, Operator, Radio Mechanic (Asst. Technician), Technician and Technical Supervisors are really professionally fit or do possess the technical knowledge against the post is to be examined.

1. Entry level or entry grade of posts Junior/Senior Cameraman (Still) and to Photographic officer, is from photographer. Hence, a photographer need to be professionally well qualified. Similar is the case with Videographer to Video Cameraman (Junior) and Video Cameraman (Senior) to the highest rank of Videographic Officer.

2. In the field of Field Publicity activities the entry grade is Helper and Operator. Their promotion hierarchy is as follows:-
(a) Helper- Operator.
(b) Operator- Radio Mechanic.
(c) Radio Mechanic-Technician.
(d) Technician- Technical Supervisor.
(e) Technical Supervisor- Technical Officer.
(f) Technical Officer- Chief Technical Officer.

3. This is the proposition of hierarchy of technical posts and candidates deserving to such posts must possess professional degrees/diploma. As such, the 'RK' has been amended by raising its qualification and additional qualifications etc.

Therefore, to make the department technically and professionally sound, trade test/ i.e. practical test along with assessment of candidates educational background has been fundamental procedure in selection. Henceforth, examination of aptitude of candidates and checking of their academic and professional certificates is essential with practical demonstration on apparatus assembled for particular trade, so conduct of Trade/practical test is essential.
