**Training cum sensitization of Gram pradhans and communicators**

TAWANG, December 21:
Training cum sensitization of Gram Pradhans and communicators under Arunachal Rising campaign was conducted today at the conference hall in Tawang in which the communica-
tions from all the secondary and primary school of the district and Gram Pradhans from six blocks of Ta-
wang district were present.

The meeting was chaired by Addl District Tawang Project Manager Shri N. Nyorak, it is also the vice chairman of Arunachal Rising Campaign Tawang. Khandu EAC (JU) and Shi Dochra Lema EAGOA also give necessary guidance and advice to the trainees.

Speaking on the occasion, the ADC Shri Nyorak said Gram Pre-
dahs and communicators play an important role in disseminating
information to the villagers and young students, therefore you should take maximum inputs of information about the different important schemes/programmes and solve
the queries of the people about the same.

CM urged the people to use...

To prove his point on reform, the Chief Minister said, “As soon as I
brought it in by Prime Minister Narendra Modi, the initial hiccup has been in unpro-
cerated change of government. He hailed Modi as friend and servant of
North East, especially Arunachal Pradesh.”

Just think of this thing…in about 28 years since Arunachal Pradesh
became a state, less than 50 visits were made to the state by
prime ministers. After Modi became the
Prime Minister in 2014, which is in about four years, number of visits by union ministers stands at about 130-plus! Khandu exclaimed. He expressed confidence that Aru-

Christmas – Nurturing the Human Tree

May God’s blessings come to you
A Thousand fold: May the Lore in your heart never get old,
And may you find treasures more precious than gold.

Dr. Joybirendra Sahoo
Chief Executive Engineer

The Season of Goodwill, family and friends reunion, exchange of gifts, sumptuous meals, the solemn, uniting night mass, Christmas Tree decorations, ‘Santa Claus is coming to town’... It is a complete and perfect end to the year, isn’t it? For that day or week, we make a good attempt to let by-gones be by-gones and enjoy ourselves. But for a significant number of people, the year-end celebrations bring on mixed feelings; situations at home and in the world tend to occasionally rear on our parade. The days of Christmas talk us to accept compassion for others, peace amongst all living creatures, family togetherness, strengthening our relationship with God - our Beloved Spiritual Parent - but does reality mirror these sentiments? Christmas is to appreciate the ‘present’ of life and remind us of the future we have to create. Perhaps the bright star on the old Christmas tree can show us the way...

The much-loved Christmas tree is one of the few things that find a home even today. This unique symbol of the tree symbolizes a beautiful tale:

Just as a tree has four stages – roots, trunk, branches, leaves – there was a time ages back when we were bound to one family (the trunk), there was unity in one language, one culture and one religion (that peace) existed in the pure mind and character ensured that our actions were controlled. With the passing of time, the spiritual energy was drained and our actions lost their divinity. This led to the give-and-take of sorrow resulting in the establishment of religions so that we could re-connect with the divine Being (the Ocean of Love, Peace, Knowledge, Bliss, Purity and Happiness). The star, stemming from one trunk is the reason why every religion (the branches) preaches the same message: We are all spiritual children of One Supreme Parent and our original nature is that of love and peace.

Looking at ourselves as physically scattered, segregated within different languages, cultures, genders, religions etc, has made us forget the ancient truths of life. Thousands of years later, we see that not only has humanity split into different religions, sects and faiths, but that every religion has its own branches (divisions). Despite this veneration, every person (leaf) is a valuable part of the tree. Some of us shine brighter than others with our good deeds, though others remain in a prominent position as bastions or amorphous branches etc. This tree, as a whole, is beautiful and everyone makes a significant contribution.

But as is the Law of Nature, we are either wise and do our duty or we are not. Presently, the tresses are off the branches, the leaves have lost its shine, the tree continues to die slowly, due to war, suffering and evils (but, anger, greed, ego). But as history and spirituality tell us, ‘Look the Star and Become the Tree’.

The beautiful star, the Supreme Light and Seed of the Tree of Humanity, comes to patients guide us on the path back to righteousness and perfection. God’s light will lead us slowly (as Father Christmas appears annually) in the dead of the night (darkness of ignorance) to share presents of wisdom, spiritual powers and virtues. When intoned and used, we can truly say: ‘We have been created in God’s image’. One cannot remain without sharing such gifts because we are motivated to fulfill God’s dream of a new creation. We become the roots, a foundation for the years ahead. By forgiving all relationships with God, we gain access to spiritual power that helps sustain our family, the world, the universe...

On this auspicious occasion of ‘Christmas’, take a moment to think deeply about the insignificance of false分离ism (division) from the bondage of greed, the lust for power and a slave of pride and make your God as your eternal companion for true peace, happiness and prosperity. This year, let us celebrate the holiday season with a purpose: remind ourselves that ‘I am a pure, living soul’, connect with the Supreme, achieve the unlimited source of wisdom, power and love on earth to fulfill the foundation (roots) of the future. Wait and see how this consciousness works wonders for you and the world through you.

Happy greetings on the auspicious festival of ‘Christmas’! To All the Souls of the World.
