Governor attended RGU Foundation Day celebration

GUWAHATI, JAN 31: Deputy Chief Minister, Chowna Mein attended the seminar on the role of Tea Community on the Act East Policy & its impact on the Social, Cultural, Linguistic and Economic Corridor across the border organised on the Silver Jubilee celebration of Me-Dam-Me-Phi festival here on Thursday.

Lauding the organizers for organizing a meaningful discourse through the seminar, Mein said that Act East Policy of Govt of India would be a game changer for the NE states of India vis-a-vis the ASEAN countries.

He said that the Tea Community residing in North Eastern States of India can act as a bridge between India and ASEAN nations because of cultural similarities, food habits and dialects/language it shares with the people across the borders.

"Cultural similarity between the people of ASEAN countries and North East India should become the future of our friendship and the bedrocks of all our policies — both diplomatic and economic," added Mein.

Mein has urged the Centre to consider reopening the Stilwell road up to Kunming in China. The people living across the international borderlines of India and Myanmar have common cultural and religious beliefs, and it would act as a catalyst for cross border trade, added Mein.

The historic Stilwell Road or Ledo Road that was constructed during the World War II starts from Ledo in Assam, passing through Pangsa Pass (Nampong) in Arunachal Pradesh and leads up to Kunming in China through Myanmar passing through many important towns in Myanmar.

He said that it is high time we should give paramount importance to re-opening of the Stilwell road and emphasis be given on priority for re-formation of this road by both the countries, India and Myanmar as it would be beneficially for both sides.

The road would further deepen the age old cultural linkages and help promote spiritual tourism.

Saying that Prime Minister Narendra Modi has put development of Northeast region at the heart of the Act East Policy which has greatly increased people to people contact, trade and other relations with the ASEAN countries, Mein in his speech elaborated on the positional advantage of the region to become the new growth hub of trade, tourism and cultural exchange taking advantage of international boundary NE regions shares with neighbouring countries. Mein also raised the issue related to the development of the border areas which he said was a national responsibility.

While extending his greetings and lauding the organizers for organizing a meaningful discourse through the seminar, Mein urged the younger generation to carry forward the legacy of freedom so that their traditional value and cultural relation and diversity remain intact.

World Radio Day

World Radio Day is observed annually on 13th of February every year. The day celebrated radio and its significance. Radio is still one of the dynamic and engaging medium throughout the world. Even after the twenty-first century changes in technological advancements, radio stands out. Still radio uniquely positions itself as a medium to bring communities together by fostering positive change. No doubt, having a radio never makes you feel alone.

The World Radio Day was proclaimed by UNESCO’s General Conference on 3 November 2011. the Spanish Radio Academy proposed a request on 20 September 2010 in Spain. After the UNESCO’s Executive Board approval with broadcasting associations and worldwide broadcasters, the day was proclaimed officially. The first World Radio Day was celebrated in 2012. In a seminar was hosted in London.

The objectives of the World Radio Day are to raise awareness among the media and public regarding the importance of radio. The day also encourages decision makers to provide and establish access to information via radio. The day encourages enhancing worldwide radio networking and international cooperation from global broadcasters.

World Radio Day 2020 is 9th year UNESCO asks all radio stations and broadcasting organizations to join and support the World Radio Day. The day is regarded as an opportunity to celebrate radio and understand how it had helped shape millions of lives in the past decades!

Let’s celebrate the traditional sports that connect us to our cultural heritage, the grassroots sports that anchor us within our communities, and the inspiring stories that challenge gender stereotypes and covers, equally, both men’s and women’s sports events.
