**New News Flash**

**DLIRST meeting HELD for Papum Pare District under the chairmanship of DC Papum Pare**

**YUPIA, June 2:**  
District Level Incident Response System Team (DLIRST) meeting for Papum Pare District was under the chairmanship of Deputy Commissioner Papum Pare Piqe Light held at DC’s residence in Yupa today to discuss the preparedness measures to coordinate the Covid-19 related activities in the district.

In view of surging Corona virus positive cases in the state, the Deputy Commissioner, Piqe Light said that we must aware the people to stay at home, and prepared to fight against invisible Corona virus by wearing mask, hand sanitization and social distancing.

He also asked all health workers to strengthen checkup and prevention mechanisms to combat COVID-19 in the district thereby creating more awareness to address public panic arising due to misconceptions about Corona virus.

Piqe Light also shared the containment plan of Papum Pare, focus on department and advised the health department to always take the help of Police during the containment. He also emphasized on community participation and imparting proper training to all DLIRST members and field functionaries about their role and responsibilities.

**DMS Dr. Musa Tasso**

Tasso Tasso also requested all to follow Do’s and Don’ts to prevent Corona virus and all round support to all COVID warriors. Dr. (Mns) R.K. Roningjang, Lemoi Singh and Kaungshong advised the House about guidelines of Containment Plan of Papum Pare (Pap) for the entire district.

---

**Meeting on District Domestic Product (DDP)**

**The DC and the Cabinet**

**ITANAGAR, May 29:**  
Chief Minister Pema Khandu today chaired the third Cabinet of the month to review the preparedness and mitigation plan for COVID-19 pandemic.

After a thorough discussion, the Cabinet viewed that in order to mitigate the backlog of sample testing, the decision was made to outsource testing. Considering that the situation will be prolonged, the Cabinet decided to procure adequate consumables especially PPE Kits and VTM and procurement of 10 quarantine and 4 insect machines for ramping up testing facilities. It was further decided to equip critical entry gates with in situ testing especially for drivers of essential items vehicles.

Resuming the need to increase health professionals especially doctors and nurses for critical entry gates, the Cabinet approved to engage retired health professionals on contractual basis.

In order to facilitate the health sector, the Cabinet approved an outstation project for upgradation of 18 District Hospitals and new hospitals for the new districts. An estimated cost of Rs 365.00 Crore to be funded by various funding windows of Govt of India with an execution timeline of 18 months. These projects shall be driven by an Empowered Committee headed by Commissioner, Planning & Investment with Chief Engineer, Planning and Dy Director Health as members and concerned Departmental Secretaries as special Invitee.

Appropriating an all-sufficientency plan of basic needs, after detailed deliberations, the Cabinet approved the proposal for development of 2000 Nutritional kitchen gardens per Legislative constituency. The Cabinet further decided to fund development of agriculture farm cluster per Legislative constituency with minimum of 5 Ha land parcel upto 25 Hs or even more. The concerned MLAs and Deputy Commissioners will make the details of the project.

**Admission amidst lockdown**

**PASIGHAT, June 30:**

While the entire nation is seeing the effects of extended lockdown, the Sansi School (Niti), adjoined to the Principal Major Singh undergoes a transformation effort to get the admission process right.

The attempt was headed by Dy. Director of Agriculture, District Horticulture Officer: Assistant Minister Development Officer, District Field Veterinary Officer, Divisional Forest Officer and District Veterinary Officer.

During the meeting all precautionary measures were maintained keeping in view the current situation of COVID-19 pandemic.

The admission was attended by the students and comfort zone of the students and staff of the School were made as comfortable as possible for parents not only from far flung places but also for parents from different areas.

**Bullo Babu wins the National Corona Warrior Award.**

**ITANAGAR, May 29:**

COVID-19 almost taught us to stay safe. The state strived hard to equip the frontline departments with saving gears and equipments. But thanks to the untiring efforts of the administration, police and the health department under the able leadership of HCM Shri Pema Khandu... the state has been able to maintain the green zone label so far.

In these untiring efforts the contribution of the NGOs and Civil Societies also needs a special mention. In Lower Subansiri and Ziro in particular, COVID monitoring and Prevention teams have been constituted by almost all the villages.

In Hong Village, Shri Bullo Babu who is the Chairman of the HK Hong Development Committee which also acts as the COVID Monitoring and Prevention Committee for Hong Village is a sleepless man. From mobilizing volunteers to move the entry and exit gates of Hong village to constituting Fying Squads and surveillance teams at the village level to ensure people follow home quarantine rules in letter and spirit, Shri Bullo Babu has a say in all the activities.

He has also provided food to all the migrant laborers and the frontline workers of his area and fuel for the surveillance teams.

“The most important thing is that no one in our village has been infected. As long as the people abide by the rules, we are happy and we trust the people to follow the rules.” Shri Bullo Babu said.

In recognition of his remarkable contribution to the society and the nation against COVID-19 and his generosity and humanity during the lockdown period, Udaya Foundation Trust, Jagpur awarded him a certificate of appreciation. Also the Anti Corruption Foundation of India and the Human Rights International Federation presented him the National Corona Warrior Award.

Shri Bullo Babu, son of Lt. Shri Bullo Gyuto is also the President of All Nichi Nii Youth Organization (ANNO).

Our villagers across the state have shown a tremendous maturity while in dealing with the COVID-19. From activating the existing age old近乎 system by preventing movement of people to and from the village and adhering to the government orders, the villagers have proved to be more sensible. In Hari village Shri Hage Doto, President of Ha-Lomba Cool Prevention Committee has been chairing series of meeting to ensure the village is safe from COVID. This committee will assist the District Administration appointing... Nodal officers and ASHA’s in monitoring the Home Quarantine, Returnees and surveying the feasibility of Home quarantine in Ha-Lomba.

This battle against this invisible enemy is a long one. Conscious efforts from all the stakeholders and following the advisories and Sops issued by the government is our only way in combating this battle.
World Environment Day

Our environment is one of the most important aspects to survive on this planet. Moreover, it is the only thing that can make life sustainable. Without it, we cannot survive even a single day. For instance, our skin will burn, the lungs will get full of smoke, and our blood pressure would rise.

Furthermore, we will not have food and water to survive. And this will also be because of the imbalance of heat and atmospheric pressure. Thus it is important that we should take care of the environment. Also, abandon the exploitation that we are causing it.

World Environment Day on 5th June every year. People from more than 100 countries celebrate this day. Furthermore, the world environment day is run by the United Nations Environment Programme (UNEP). Since the year 1973. Above all, the main purpose of celebrating this day was to spread awareness. Therefore it is our duty to protect our environment. And stop all the exploitation that is destroying it. Because in the end, it is our basic need for our survival and our generations ahead.

On the world environment day, we all take a day off from our work. And join various campaigns to spread awareness about environment protection. Moreover, we all plant small saplings in a barren land so that it may grow and flourish in the land after some years. Also, we take part in various processes to make people aware of this. So that they may also take part in protecting our environment.

Furthermore, in schools, teachers teach the students the methods to plant a tree. The school provides buses to take the students to the jungles. There they come to know about the different types of plants. And the types of vegetation in which they survive. Also, the students have to bring a sapling from their home and plant them inside the ground. This helps them in getting practical knowledge. Furthermore, it also creates an emotional attachment to the environment.

KHONGA, May 27:
People of Kaimai village headed by Shri Khampaang Lowang, have suggested to continue the activities of Kaimai village by planting the trees, quantity of light bedding items along with full loaded green vegetables, in a min truck to District Administration and to the Finance Minister of different autonomous districts. The following items were handed over to the Shri SDM, Bhanu Pratish, IAS by Chief of Kaimai Shri Khampaang Lowang, and they mention below and will continue the activities.

- Undermining the carry forward of cultural heritage under the Ganjam Philosophy, the government said that Gandhi stressed on preservation and promotion of the culture and tradition of all the communities.
- Earlier, Director NT, Arunchal Pradesh, Prof. M. Mahanta tied the initiative of Ganjam Bhandar in Centre of NIT, Arunchal Pradesh in the form of a tree plantation.
- The Centre was inaugurated by the Governor of Arunachal Pradesh at the 24th October 2016. The Director also thanked the Governor for the initiative, which has been constructed by North Eastern Regional Conference Hall.
- First lady of the State Nirmala Manla, Vice Chancellor of Rajiv Gandhi University of Malaysia, Prof. Sakti Kuswaha, Director NERIST, Prof. H.S. Yadav, former Vice Chancellor, Dr. Tahsuk Chuaman, Prof. (Dr.) Nishad Chandh and faculty and student of NIT were present on occasion.

TAWANG, May 28:
To encourage local farmers to grow more vegetables and to provide them with market ready MLA Tawang Shri Tawang Tashi, today inaugurated a sales counter of Agriculture Marketing Committee (AMC) under the District Agriculture Tawang near DC Office Tawang. Shri Sang Pritu, Deputy Commissioner, Tawang also presented full loaded green vegetables and fruits to the denizens of Tawang, and further instructed to continue this activity for the benefit of the people of Tawang, and also called for continued contribution during lockdown for providing fresh local organic vegetables to the denizens of Tawang, and also called for continued contribution during lockdown for providing fresh local organic vegetables to the denizens of Tawang.

- MLA Tawang Shri Tawang Tashi, in his address called for continued contribution during lockdown for providing fresh local organic vegetables to the denizens of Tawang, and further instructed to continue this activity for the benefit of the people of Tawang.
- MLA Tawang Shri Tawang Tashi, in his address, said that it is a matter of great relief that at the time of crisis the people of Kaimai village have voluntarily done a good number of the things along with green vegetables.

- MLA Tawang Shri Tawang Tashi, in his address, said that it is a matter of great relief that at the time of crisis the people of Kaimai village have voluntarily done a good number of the things along with green vegetables to District Administration, Tirap, he also said that the number of donations did not come from the public who would deliver the vegetables at the request of Frontline warriors viz – District Administration and Frontline workers.

- MLA Tawang Shri Tawang Tashi, in his address, also called to keep the vegetables away from fake news and panic.

- MLA Tawang Shri Tawang Tashi, in his address, said that the number of donations did not come from the public who would deliver the vegetables at the request of Frontline warriors viz – District Administration and Frontline workers.

- MLA Tawang Shri Tawang Tashi, in his address, also called to keep the vegetables away from fake news and panic.

- MLA Tawang Shri Tawang Tashi, in his address, also called to keep the vegetables away from fake news and panic.

- MLA Tawang Shri Tawang Tashi, in his address, also called to keep the vegetables away from fake news and panic.

"Sometimes we are in troubled water but that’s not to get us drowned but instead to disrupt our life so that we can grow stronger. Not all storms come to disrupt our life but that’s to grow us stronger.

Two are much hue and cry going on across the Globe about Covid-19. Being a motivational speaker, I am going to highlight the positive side of this pandemic and moreover how it can change our life positively.

The sky is now clear over a short span of time in it can change our life positively. The government is already doing so much from its side, we must also be patient and co-operate well.

The government is already doing so much from its side, we must also be patient and co-operate well. At last I would like to say that if you want to give light to others you have to glow yourself. When a negative thought enters your mind then think about 5 positive thoughts and this way you will be able to shift your paradigm and switch your mentality from “I am broken and helpless” to “I am growing and healing”. Just keep this in your mind and every thing will fall into place.

"Stop trying to calm storm; calm yourself and the storm will pass."

The Silver Lining - Positive Impacts of the Covid -19

HMLA 13- Itanagar distributes horticultural inputs to 33 farmers

YUPIA, June 3: HMLA 13-Itanagar Shri Tech Kaso distributed horticultural inputs like fencing materials, orange seedlings, mushroom cuttings and pine apple suckers to 33 farmers benefiting under 13-Itanagar Assembly Segment under Chief Minister’s Samuhrit Kisan Yojana 2019-20 at general ground near Govt. Secondary School, Yupia.

The programme was organised by the Horticultural Department Papum Pare District, Yupia.

While briefly speaking on the occasion HMLA 13-Itanagar Shri Tech Kaso appreciated the efforts of Horticulture department, Yupia and advised the beneficiaries to properly utilise horticultural inputs provided by the Govt to become self reliant and self sufficient in long run. He also cautioned the farmers to not to misuse the inputs provided to them like barbed wires and seedlings.

Talking about present COVID-19 pandemic lockdown situation, he says that it has given us great lesson to reorient our priorities. Shri Tech Kaso further said that it is high time to maintain cleanliness and hygiene which is the only medicine that will save us from Corona virus. Moreover practicing cleanliness is not only good for our health but also for our environment.

Another important opportunity I would like to quote is to develop or pursue your hobbies passionately. Remember dear reader, a door is much smaller compared to the house, a lock is much smaller compared to the door, a key is much smaller of all but a key can open an entire house. Thus small thoughtful hobbies and solutions can solve major problems.

Conclusion:
The government is already doing so much from its side, we must also be patient and co-operate well.

Oyster mushroom cultivation for resource poor tribal farmers

C.K. Singh, SMS (Agronomy)
Krishi Vigyan Kendra, Tawang (Arunachal Pradesh)

Mushroom is a wholesome food for all groups because of its nutritional and medicinal properties. Rich in protein, dietary fiber, vitamins and minerals, it can be used to serve as the nutritional needs of the rural poor. Arunachal Pradesh has a great scope for commercial mushroom cultivation by recycling paddy, Millets and maize waste for higher income generation. It can cater to the growing food demand; solve unemployment issues and environmental pollution to a significant extent.

Further, mushroom husbandry can help the farming community by generating income by utilizing the farm waste. The substrate remains after cultivation of mushroom is more readily Digestible and palatable to livestock. Additionally, it can be exploited as a source of manure, and mulch for soil and others. Mushroom cultivation consumes huge quantity of organic wastes and degrades complex organic pollutants and thus helps to maintain clean environment.

Focus area: Farm women, rural youth, resource poor, landless, small and marginal farmers.

Extension activity followed: During the baseline survey, it was found that farmers use the paddy, millets and maize straw for feeding of animals. To make use of straw and generate alternative income from waste, oyster mushroom production was introduced.

Impact and lesson learnt: Within the month of mushroom production, 60 kg mushroom were harvested from each unit and sold to the local market. The farmers expressed interest in mushroom production due to its low investment and management.

MESSAGE

The collective wisdom of the Nation States in world, has prudently recognized the pressing need for the upkeep of the environment. Accordingly, every year, on 5th of June, the World Environment Day is celebrated by the people all over the world.

For more than forty years now, this celebration has been reminding us of our responsibility for preservation and conservation of Environment on our planet. This endeavour has also been acting as a powerful platform to accelerate, amplify and engage people, communities and governments, round the world, to address the critical environmental degradation challenges faced by the mankind. With peoples’ positivity, this movement has grown to be the largest global platform for environmental public outreach and is observed in more than 100 countries. Significantly, it is the United Nations’ flagship day for promoting worldwide awareness and consciousness for the environment and more importantly for the restoration of biodiversity which over the years has become a big concern of the people.

Very aptly, for this year’s World Environment Day Celebrations, on the initiative of the Republic of Colombia, in partnership with hosting country, the Republic of Germany, “Biodiversity” has been kept as its theme.

2020 is a year of urgency, ambition and action to address the crises facing the nature. It is also an opportunity to fully incorporate nature-based solutions to global climate deterioration. This we must resolve to realize.

On this World Environment Day, we Arunachals benevolently pledge our commitment to protection and sustenance of pristine nature. Let us, together, on this Day contribute our bit and plant a tree each to make our mother earth better than we inherited it.

Jai Arunachal!
Jai Hind!

PEMA KHANDU
Chief Minister
Arunachal Pradesh

MESSAGE

World Environment Day is observed on 5th of June every year and is the United Nations’ principal vehicle for encouraging worldwide awareness and action for the environment. Held annually since 1974, the Day has also become a vital platform for promoting progress on the environmental dimensions of the Sustainable Development Goals. With the United Nations Environment Programme (UNEP) at the helm, over 150 countries participate each year to celebrate the day. Major corporations, non-governmental organizations, communities, governments and celebrities from across the world adopt the World Environment Day brand to champion environmental causes.

This year, Colombia along with Germany is hosting the World Environment Day with the theme “Biodiversity”, which is suitably poised at this point of time because "The Strategic Plan for Biodiversity 2011-2020", an international framework for action by all countries and stakeholders to save biodiversity and enhance its benefits for people is ending this year and UN Decade on Ecosystem Restoration (2021-2030) is commencing next year intending to scale up the restoration of degraded and destroyed ecosystems to fight the climate crisis and enhance food security, water supply and biodiversity.

Therefore, there is no better time to come together for the planet than now. As Climate action and Biodiversity conservation are two sides of the same coin, we need to develop policies that stop the extinction of plant and animal species.

On this World Environment Day, lets all resolve to encourage public participation in the management, protection and conservation of the environment. Protect genetic resources and biological diversity. Establish systems of environmental impact assessment, environmental audit and monitoring of the environment and utilize the environment and natural resources for the benefit of the people of Arunachal Pradesh.

Everybody, therefore, has a duty to cooperate with the State organs and others persons to protect and conserve the environment and ensure ecologically sustainable development and use of natural resources in the State. Let Us Join Together for Nature.

Healthy Environment, Healthy Future! Happy World Environment Day!
Guidelines for Helicopter Operators:

1. Helicopter Operator shall ensure sanitization of helicopters before first take off and after last landing at Naharlagun Heliport.
2. All crew and passenger seats, seat-belts, shoulder harness, ear defenders, life jackets and rebreathers (as applicable) shall be cleaned and sanitized before and after each flying.

PROHIBITORY ORDER

(W/Sec. 133 Cr. P.C.)

WHEREAS, it has been reported that rampant earth cutting is going on at various locations at Itanagar, Naharlagun, Nirjuli and Bandehwa of Itanagar Capital Region.

AND WHEREAS, such illegal earth cutting has induced landslides/mudsides leading to blockage/damage of Right of Way (RoW) on the NH 415 and other sector roads and there is need to take early action to avoid any untoward incident which may cause obstruction and pose threat to life and property of the denizens.

THEREFORE, under Section 133 Cr P.C. 1973 r/w Section 30(1) and Section 34 of the Disaster Management Act 2005, following order is hereby passed:

1. Earth cutting in the Capital Region is banned for a period of 4 (four) months from the date of issue of this order up to September 2020, unless the monsoon period is over.

2. In case of any exigency, NOC/permission should be obtained from the DM-cum-CEO, Itanagar for special exemption for such earth cutting.

3. The JCB/Forklift operators shall obtain NOC from the ADM cum CEO to obtain POL items from any depot. No oil depot manager/owner should give POL items to above heavy earth cutting vehicles without such permission from the ADM.

The ADM-cum-CEO and all the Magistrates and Police shall implement this order in letter and spirit on the ground. The defaulters shall be booked under section 188 of IPC, section 51(a) under Disaster Management Act 2005 and other appropriate sections of Law.

HMLA Raga inspects the quarantine facilities

RAGA, June 1: HMLA Raga Shri Tarm Daiko inspected the quarantine facilities at Raga today. He was accompanied by Deputy Commissioner Shri Hengse Basu and other officials.

He spoke to the returnees undergoing quarantine at the center and advised them to abide by the government guidelines. While donating two lakh rupees to the District Administration for the fight against COVID and Rs.20,000 each to the Medical and the police department, he called for unified efforts from all the departments to combat the disease.

With more relaxations on the way lockdown 4.0, we will have to be more vigilant and create mass awareness amongst our people regarding the ways to keep ourselves safe,” he added.

Appreciating the arrangements made by the District Administration, police and the health department for the prevention of COVID-19, he urged the inmates to be strong and positive and use the time during quarantine for productive activities.

In his concluding remarks, DC Karma Leki expressed his satisfaction over the arrangements made by the district administration and the services being provided by the frontline workers. He was accompanied by the Nodal officer for Quarantine centers SDIO (HQ) S Khadon, DSO Dr. SK Thongon and Dy. SP among others.

Earlier in the morning, MLA Dongru visited the quarantine centers under Singshong Sub-division in the district.

MALA Dongru visits inmates in quarantine facilities

BOMDILA, June 1: Local legislator MLA Dongru Longio visited the Quarantine centers of Bomdila and interacted with the inmates placed at different centers.

Interacting with the inmates, MLA Dongru asked about their well being, services being provided and complaints, if any. He urged the inmates to be strong and positive and use the time during quarantine in a productive way.

Dongru expressed his satisfaction over the arrangements made by the district administration and the services being provided by the frontline workers. He was accompanied by the Nodal officer for Quarantine centers SDO (HQ) S Khadon, DSO Dr. SK Thongon and Dy. SP among others.

Rural-Urban Power Feeder Line Segregates in West Siang

ALLO, May 31: The eight month long strenuous effort to segregate rural-urban power feeder lines initiated by ex-DMG Arun Ango EE Power could materialize today well ahead before the deadline for shutdown amid cheer and applause today.

The long felt segregation was done to do away lengthy feeder lines that run in rural areas resulting in line faults due to various reasons thereby disturbing power supply of urban areas. There will be a single feeder line for the rural areas. Arun Ango had one only line 11 KV feeder and the department had added one more feeder line last month during 3.0 lockdown. With the addition of one more feeder this time, the town has three feeders in the 4.0 lockdown.

With this arrangement the power scenario in the district and adjoining district will have improved power supply without interference after the segregation. The power cummunity has improved drastically after joining of Arun Ango, Executive Engineer Power West Siang. He could manage this within one year on his posting to this district.

DA conducts table top exercise on containment plan for Bomdila

BOMDILA, May 31: Giving a clarion call to the CBOs, NGOs and other voluntary organizations to work hand in hand with the District administration, Health department and the Police in containment of the COVID-19 pandemic, Deputy Commissioner Bomdila Dr. S Leki outlined the concept of the Table Top Exercise of containment of districts headquarters Bomdila.

The same would be replicated in all the remaining six administrative Sub-divisions of the district.

DMO Dr. D Wange, DSO Dr. SK Thongon and Medical Superintendent DH Bomdila Dr. Gom Lamu dealt at length on the Containment micro plan-management of suspect and confirmed cases of COVID-19. SOP for COVID-19 cases through power point presentation and need for specialists, GMHOS, paramedical and sanitary workers in the District hospital to fight the pandemic effectively.

It was impressed that, even one missed contact could keep the outbreak going.

The wardens and officers were attended and briefed on the concept of the Table Top Exercise for containment of COVID-19.

The concept of the Table Top Exercise was to segregate rural and urban areas. There will be a single feeder line for rural areas. The town has three feeders in the 4.0 lockdown.

6 AR and Khonsa Police arrests extortionist

TAWANG, May 31: The District Tobacco Control cell (DTC) Tawang today observed World No Tobacco Day with the Theme “Protecting youth from industry manipulation and preventing them from tobacco and nicotine use. In Tawang headquarters the programme was organized in collaboration with TAWANG RIDERS CLUB, ten mountain Bikers from Tawang headquarters the programme and Mr. Tenzin Yangchen and CO cum Dy. Commissioner Bomdila.
